

Natural Gas Truck Fueling Stations

August 2008

The Growing Fueling Network

Clean Energy's existing and planned public access truck fueling stations are shown for the Greater Los Angeles Area (above) and the Southwest Region (right). Compressed Natural Gas (CNG) stations are for CNG trucks. Liquid Natural Gas (LNG) stations are for LNG trucks. Existing stations are open today. Planned stations are under development for opening soon or projected to be built. Additional station sites can be built to meet customer requirements. Contact Greg Roche or Shaunt Hartounian of Clean Energy at (562) 493-2804 for more information and current station status.
