Clean Energy, major U.S. supplier of environmentally-friendly, cost-effective natural gas fuel, and Hallahan Truck Sales, certified AUTOCAR natural gas refuse truck dealer, have partnered to provide a new "one-stop solution for refuse" haulers.

The new refuse sector offering from Clean Energy and Hallahan Truck Sales includes:

- The custom-configured AUTOCAR Xpeditor® WXLL natural gas refuse truck,
- low-interest Clean Energy truck purchase financing options,
- assistance with securing available grant funding and tax incentives,
- long-term price-protected fuel supply contracts,
- and access to a statewide network of Clean Energy fuel stations.

Compared to traditional diesel trucks, advanced technology natural gas-powered refuse trucks offer:

- cleaner, healthier air quality for the community,
- reduced "greenhouse gas" environmental impact,
- quieter operation in service areas,
- and lower fuel costs for haulers.

Natural gas fuel from Clean Energy is domestically sourced, clean-burning, and less costly than diesel fuel.

State-of-the-Art Clean Air Refuse Trucks

Available from Hallahan Truck Sales in Holtsville, NY, the new custom-configured AUTOCAR Xpeditor® WXLL natural-gas powered refuse truck features:

- Dual-drive cab, with left and right-hand seating
- Chassis with a 182-inch wheelbase
- 27-yard capacity Heil Formula® 5000 rear end loader
- Cummins-Westport L Gas Plus natural gas-powered engine (320HP at 2,300 RPM/1,000 LB-FT)
- Allison 4500 RDS transmission, and
- FAB Industries' natural gas fueling system.

The Hallahan Truck Center has AUTOCAR Xpeditor natural gas trucks on hand for immediate delivery, and is also fully equipped to configure trucks to buyer specifications. Based in Hagerstown, Indiana, AUTOCAR is the only manufacturer in the industry that is 100-percent focused on refuse trucks.

Truck Purchase Financing

Clean Energy offers low-interest purchase financing terms to buyers of AUTOCAR Xpeditor® natural gas trucks from Hallahan Truck Sales. To help defray purchase costs, Clean Energy specialists provide buyers with up-to-the-minute information and access to grant funding, tax rebates and other public and private incentives. Finance programs are individually configured to take advantage of federal clean-air incentives. Currently, for example, there's a federal tax credit available for up to \$32,000 of the initial truck purchase price.

Price-Protected Long-Term Fuel Contracts

Clean Energy's long-term fueling contracts allow truck buyers to pay agreed-upon rates regardless of fluctuating market conditions.
